There's not enough here to make it worth the time it takes to "play". A few pictures and a bunch of text, really. The girl is your stereotypical anime female (bad cook, loves cute things) which might be nice if you like that kind of thing. There is a meta-twist at the end which is kind of neat, but getting there is tedious.. Successor in this own little genre. Great story, characters, voices, dialogues (I really like the sequences in between levels). Smooth gameplay, beautiful levels. The game is actually harder than e.g. Desperados and that's a good thing. It feels great when you are beating a level. Perfect length with 20h. There is a massive amount of achievements even for speedrunning the levels. If you like the games from this genre you will love this one.. garbage lol. This is an interactive storybook that might appeal to children, but certainly not teens or adults. The voice over is a bit whiny and the background music repetitive. The artwork is done in the style of a skilled child. I don't mean that in a negative way. I am sure that it is created in this style intentionally to evoke feelings of childhood, which is good. Unfortunately, I wonder if kids would be able to see the directional arrows clearly as they move through the story. The colors aren't very bright. I did end my game play early because it really wasn't my cup of tea. I think this would be ideal for parents or grandparents willing to play this game with their young child or grandchild. It wouldn't be my first recommendation, though.. A good friend of mine recommended this game to me, so I checked it out.

This game best reminds me of Mega Man X8 on the PS2(PlayStation 2). Both playable characters in this game are a unique mix of all 3 main characters in Mega Man X8 (X, Zero, and Axl). With Axl's 360 degree firing ability, Zero's ability to double jump, and X's ability to upgrade himself.

The game can be challenging at times, but it's never so difficult that it seems impossible to complete.

There are a lot of hidden items and secrets to find and a few alternate routs.

I used an Xbox Once controller with this game with no problems since it had a pre-setup profile for the controller built into the game right from the start.

Overall I've found this game to be a great game, and a good example of how to do a Mega Man X game right!

If your a fan of the Mega Man X series, or just a fan of the Mega Man franchise in general, then you can't go wrong with picking this one up. And that's my 2 cents.. This is a pretty neat little puzzle game. It's something like a cross between Othello and Bejeweled. It's got some pretty great background music. If you're looking for a casual puzzler, this is a pretty good one.. fail game; dont buy it!. Short, simple and satisfying. I mean simple in a good way; this game has decided what it wants to be and has pared away everything else, leaving not-too-many encounters, not-too-much grinding to get frustrating. Gorgeous art that makes the most of the style, and well-chosen music. You will need okay reflexes or a bit of patience for the timing-based combat and minigames.. I have to say this is one of the best routes i ever played the loco sounds are very realistic. The route is very nice with montains and green hills i hope i will see more of this in the future

Haunted House isn't terrible but it's not good either. It doesn't know if it wants to go after the kids demographic, or the adults who actually remember the original. It's also not sure how to update the gameplay. It's not bad but it's not great.

<https://youtu.be/vqE5YcWTK7GI>. It's not a bad game at all! I was playing and I heard footsteps nearby so I got scared thinking someone..or something, could be on it's way toward me! I recommend this. I don't understand how it has mixed reviews, and not only that, IT'S 51 CENTS FOR THE WEEK LONG DEAL! I love it! Keep up the good work, GK!

Also did a review on it.. [On the Rain Slick Precipice of Darkness, Episode Two](#) picks up shortly after the events of the first game. Once again, you (your character from the first episode can be imported) team up with 1920's-era Gabe & Tycho to stop an apocalyptic menace. Everything I said in my recommendation of the first game once again holds here, because this is pretty much the exact same game - literally, it uses the same engine, combat, mechanics, style, etc. The only things that have changed are the locations and enemies. So just take my previous review, replace "slaughtering hobos, clowns and mimes" with "slaughtering mental patients, pretentious rich folks and giant spiders", and there ya go. But that's not to say there's anything wrong with this - it works in an episodic format. So once again, if you are a fan of PA (their humor or characters) and adventure-RPGs, this is worth a look, despite the rough edges. I'm now looking forward to the recently announced Episode Three!. [What the hell?](#)

[Who developed this? The career half of the game is playable until the last challenges, until you play one mission where you have to spend almost half a round in the air and the last match is versing a car that seems to have stronger weaponry than you do and three times the armour.](#)

[Thanks but no thanks.. I'll be reviewing this one of the three because it is the best of them, even if they are all bad.](#)

[The second game is best because you can switch between absorbing red projectiles and being hurt by blue, and vice versa, which is pretty cool and I don't know why they dropped it for the third game. Even still, the games are too hard, even on easy mode. Some of us have jobs and don't have time to invest into playing the same level over and over to perfect it. No, I'm not going to keep playing it to prove to the internet I'm a "hardcore gamer who appreciates a challenge XD". Suck my♥♥♥♥♥♥if you think hard games are fun simply because they're hard. If a level wasn't fun the first time, why it would be fun the 20th time is a mystery to me.](#)

[One out of five Lennys](#)

[\(◡ ◡\) \(\) \(\) \(\)](#). This game is not good. Bad controls, slow and painful tutorial. Not worth the \$2. Great game first look was great its really cheap for a cool game like this. If you are looking a game to have fun for 1-2 hours you have to buy this game the creator of this game is really cool too really supportive helped me in game definitely a nice game!
